

# Lecture Notes on Information Theory

## CONTENTS

---

### Volume 3, Number 1, June 2015

#### Communication Theory and Technology

Community and Relation Discovery in E-mail Network Using Author-Recipient-Community Topic (ARTC) Model ..... 1

*Arzu Kakisim and İbrahim Sogukpınar*

Extending Enterprise Architecture Modeling Languages: Application to Requirements of Information Systems Urbanization ..... 8

*Y. Sayeb, M. Ayba, and H. Ben Ghezela*

Effect of PAPR Reduction Technique on the Performance of ASTC MB-OFDM UWB System ..... 14

*Ines Ben Hassine and Ridha Bouallegue*

Performance Enhancement in 5G Mobile Network Processing ..... 19

*E. AlMousa and F. AlShahwan*

Component-Based Model for Heterogeneous Nodes in Wireless Sensor Networks ..... 25

*Atif Naseer, Basem Y. Alkazemi, and Hossam I Aldoobi*

Location Based and Contextual Services Using Bluetooth Beacons: New Way to Enhance Customer Experience ..... 31

*Nilima A. Dudhane and Sanjeevkumar T. Pitambare*

A Novel Definition of an Efficient Binary Decision Tree ..... 35

*Christopher Nwosisi*

#### Computer and Information Systems

Utilization of Two Diacritics for Arabic Text Steganography to Enhance Performance ..... 42

*Esraa Mohammad Ahmadoh and Adnan Abdul-Aziz Gutub*

A Novel Algorithm Based on 2D Packing Algorithm BFD for Timeslots Assignment in MF-TDMA System ..... 48

*Sheng Dai and Chong Shen*

Intrusion Detection Techniques in Mobile Adhoc Networks: A Review ..... 52

*Salman Naseer and Rashid Mahmood*

Modeling Cloud Computing Integration with E-Supply Chain Management ..... 56

*Ahsan Chaudhri, Anita Ajmiri, and Jaishree Asarpota*
