

Lecture Notes on Information Theory

CONTENTS

Volume 4, Number 1, June 2016

Communication Information Theory and Technology

An Improvement Vertical Handover in HetNets Based on Alteration Channel Allocation Scheme.....1

Sunisa Kunarak

An Early Termination Criterion for Stochastic LDPC Decoding.....7

Huiming Dai, Qiangze Chi, Hao Yan, Xin Zhang, and Dacheng Yang

Analysis of LDPC Codes in DSRC System's Application13

Huiming Dai, Xin Zhang, and Dacheng Yang

Network Engineering

Critical Cybersecurity Risk Factors in Digital Social Media: Analysis of Information Security Requirements18

Nik Zulkarnaen Khidzir, Ahmad Rasdan Ismail, Khairul Azhar Mat Daud, Mohamad Shahfik Afendi Abdul Ghani, and Mohd Asrul Hery Ibrahim

A Conceptual Framework Secure Web Service: Secure Transaction Logging System.....25

Nor Izyani Daud and Khairul Azmi Abu Bakar

Information Education Technology

Concepts and Principles of Assistive e-Learning System with Multinary Learning for Hearing-Impaired Students...30

Thanongsak Sovajassatakul and Settachai Chaisanit
